Can you tell me what the site name is on epaoscd.net? I cannot find it.

Bob, same question to you guys. Did you or Atlanta compile the data by resident?

Thanks. Very much appreciated.

Probably another stupid question, but did you guys ever prepare a summary (by resident) of the Cabot and Padep data, focusing on where there are exceedances?

Rich- The real- GIS map is on your OSC page. loaded by Jim Bennett for me.... This one was modified from Jim's original to put in a HQ presentation and ATSDR used it for their report. The one on your OSC site has names of both the residents and Cabot gas wells. Jim can give you or your contractor a hand with the other map if you need it..

Karen,

I understand that the map used in the ATSDR AROA (attached) came from you guys. What is the source (i.e. Cabot, PADEP, etc.)? We are trying to work on the issue of how large the size of the "site". This is a good map to start with as a reference. Unless its already done, I'd like our contractor to put it into standard GIS format.

Let me know what you know, so we move out from there.

thanks.

Rich
